

ROBERT L. GEORGE, JR., RA

ARCHITECT/PRESIDENT

QUALIFICATIONS:

Robert L. George, Jr. has 26 years of professional experience in the field of Architecture, Structural Engineering, Project Design and Construction Management. Prior to the pursuit of his personal practice, Mr. George served a 19-year tenure with the firm of Jackson & Tull Chartered Engineers as an Associate of the firm. Mr. George's expertise covers a wide range of design and construction project types, i.e., church facilities, education and day care facilities, residential buildings, transit stations and parking facilities. Mr. George has served as Adjunct Professor of Architecture at the University of the District of Columbia. His most renowned accomplishment has been the successful completion of the design and construction oversight of the Jericho City of Praise Church/Campus in Landover, Maryland.

Mr. George has been known to solve difficult problems in the design phase and during the actual construction. His commitment to the client and the profession further strengthens RLG Architects, LLC commitment to quality design and construction services, and professionalism in the building experience.

EDUCATION:

Hampton Institute
B.A., Architecture 1976

REGISTRATIONS:

1983 / Architect / MD
1983 / NCARB Certified

PROJECT EXPERIENCE:

Jericho City of Praise, Landover, MD- Provided the design and construction oversight for this five building church campus. The facility consists of a 10,000 seat sanctuary, 400 seat chapel, administration building, a 400-student Christian Academy building with a gymnasium and a college student building that accommodates 800 students. Mr. George's direct involvement with this project ranged from the land procurement and contract administration to final occupancy permit issuance.

WMATA, Prince George's Plaza Metro Rail Line and Station, Hyattsville, MD- Project Manager for the section designer, responsible for the design of cut and cover rail, station design, and four-story parking structure. The project also included the design of a separate traction power sub station facility.

DC General Hospital, Washington, DC- Project manager for the structural design of a new hospital wing to house a new Intensive Care Unit.

DC Correctional Treatment Facility, Washington, DC- Project Manager for the structural design of this multi-building, multi-story prison facility.
